JOB EXPERIENCE

Frontend Developer | Media.Monks |
2021 – 2025

Worked on international digital projects for leading global brands, focusing on React, TypeScript, accessibility, and performance optimization.

Key Projects:

- Barry University – Website maintenance using React, TypeScript, Muban, Node.js.
- Ralph Lauren – Fragrance Quiz – Interactive quiz built with React and TypeScript.
- McLaren – Website maintenance and enhancements with React, TypeScript, GSAP.
- LG ThinQ – Website maintenance with a focus on responsiveness and accessibility.
- DayOne – Contributed to storybook components, Muban, React, GSAP, accessibility; supported site maintenance and career site redesign.
- PayPal – Parent Brand Kits – Implemented UI components and integrations with Frontify.
- U.S. Air Force – Website maintenance with Muban, React, TypeScript, GSAP, accessibility improvements.
- Transcend – Designed and implemented a cookie banner with React, TypeScript, Vite, Storybook.

Tech stack: React, TypeScript, JavaScript (ES6+), Node.js, GSAP, Storybook, Muban, Vite, API integrations, accessibility (WCAG/ARIA).
